Digital

All our creative paper ranges have been developed for digital print technologies and are specially adapted to guarantee superior quality results. This makes our papers the choice for high quality short runs and personalised printing. While the full range is widely compatible with all leading dry toner technologies, it also offers a selection of papers dedicated to liquid toner printing (HP Indigo technology).

The i-Tone® treatment is a special, proven formulation developed by the American paper manufacturer Mohawk. This treatment ensures consistent, high fidelity print quality, extremely quick drying time and excellent ink adhesion.

Our creative papers in SRA3+ and B2 are primed for HP indigo printing, ensuring long lasting printing, without altering the touch and feel of our papers.

SRA3 sheets from our creative papers range are ready to print with dry toner systems. The full range has also been tested with the latest dry toner technologies.
